Title of my document

By: Malena Rice

Group Members: Imad Pasha, Gaspard Duchene[*]

1 Abstract

CONCISE description of your lab and major results.

2 Introduction

Introduce the experiment.

3 Equipment and Data

Discuss data acquisition and describe equipment.

4 Analysis

Analyze the retrieved data.

Column 1	Column 2
Element 1	Value 1
Element 2	Value 2

Table 1: Insert Your Caption Here.

Refer to figures in the text using references: for example, Figure 1.

Figure 1: Caption your figure here.

$$F = \sigma_{SB} T^4 \qquad (1)$$

Math mode example: $\alpha\beta\gamma$

One full line in math mode:

$$F = \frac{L}{4\pi d^2}$$

Numbered list:

1. First item

   (a) Nested item 1

   (b) Nested item 2

2. Second item

Bullet point list:

- First item

- Second item

  – Nested item 1

  – Nested item 2

---
